STRIKING MINERS HOLD THEIR OWN

Offer of 10 Per Cent Wage Increase Does Not Discourage Them.

WILL STAND BY UNION

They Will Not Go to Work Until Their Leaders Tell Them to Do So.

FOR A MINERS' CONVENTION

Scranton, Pa., Oct. 3—[Special Telegram]—Notices are posted here at thirty-six collieres of the Lackawanna Company and Hillsdale and Temple Iron Companies offering an advance of ten per cent. to all who return to work. There are sixty-three collieries in this district which have not signified their intention of granting an advance of wages, mostly individual operators. At headquarters speculation is rife as to what effect the offer of the companies will have on the miners tomorrow. The situation today is practically unchanged.

For a Miners' Convention.

Shenandoah, Pa., Oct. 3—[Special Telegram]—Meetings of all the local branches of the United Mine Workers were held here today to elect delegates to the convention to be called later by President Mitchell. Resolutions were adopted at all the meetings expressing the strikers' determination to remain away from the mines until the operators decide to recognize the union. It was also agreed that the men would only return to work in a body.

Leaders in Conference.

Hazleton, Pa., Oct., 3.—[Special Telegram]—President Mitchell arrived here this morning and immediately went into conference with five national officers. He said the meeting would be a long one, but denied that the question of settlement would be considered. Plans for the relief of the destitute strikers is to be the topic under discussion. No more men went to work today than were at work last week and gains are reported in the Shamokin district.

PLOT TO KILL PRESIDENT.

Story That Three Assassins Have Gone to Canton from Chicago.

Canton, Ohio, Oct. 3.—Information was made public here that another plot had been discovered to assassinate President McKinley. The police are active, but it is believed by prominent citizens that the alleged plot is so hazy that it assumes the nature of a campaign story. Detectives connected with the safeguarding of the president say that there are three men either here or on their way to kill the president. There is a strong guard about the home of Mr. McKinley today. Every train is being watched, and extra policemen have been detailed to enforce an order issued today by Mayor Robertson, ex-officio chief of police, reading as follows:

"To All Policemen: Keep close watch on all strangers who are seen in the city. Be particular to watch for two Italians who will probably be accompanied by an old man who dresses like and passes for an old soldier. If these three or either of them are found, arrest them on sight and hold them on charge of suspicion. Watch all incoming and outgoing trains."

It is announced that President McKinley as yet knows nothing of the plot to assassinate him which his guardians assert exists. Notification that there was a plot on foot to kill the president in Canton came from the Chicago branch of the secret service.

PASHA FLEES TO FRANCE.

Was in Fear That the Ottoman Ruler Was About to Arrest Him.

Paris, Oct. 3.—Gen. Osman Pasha, a near relative of the deceased Osman Pasha, the "hero of Plevna," has arrived at Marseilles from Constantinople, whence he fled owing to the sultan's suspicions that he was engaged in a conspiracy. He embarked surreptitiously on the steamer Bagdad, in order to rejoin his relative, Mahmoud Pasha, in Paris.

Holding the rank of general of division, he had long been an influential personage at the Ottoman court. Recently the sultan suspected him of disloyalty and had him closely watched. A few days ago he got wind of the intention of the sultan to arrest him on charges of plotting to assassinate the Ottoman ruler. He succeeded in eluding the vigilance of the palace guards and reached the Bagdad just as she was leaving her moorings.

TIN-PLATE SCALE IS SETTLED.

Only Question Still in Dispute Is One of Principle.

New York, Oct. 3.—The conferences between officers of the American Tin Plate company and men representing their employes have resulted in an agreement on the scale of wages, but some minor demands of the men remain to be settled. The consideration of these was deferred pending the arrival in this city of some of the district managers of the tin plate company. These men are expected today, when the conference will be continued. It is believed a final agreement will be reached. "We have settled the wage question," said George Powell, president of the International Tin Plate Workers' Protective association of America, "the company granting us a slight concession. The question that is now under discussion involves a principle, and unless it is recognized there will be trouble." Powell declined to say what the question in dispute was, but said it had nothing to do with the recognition of the union.

CHARGES BRYAN OF ACCEPTING A BRIBE

Report That Silver Mine Owners Promised Him $150,000 If He Stood By Free Silver.

Peoria, Ill., Oct. 3.—In an interview in the Evening Journal yesterday afternoon C. M. Kingman, Delavan, alleges that William J. Bryan insisted upon the 16 to 1 plank in the Democratic national platform at Kansas City because of a promise of $150,000 cash from silver mine owners.

Mr. Kingman says that among his acquaintances is a young woman who is an intimate friend of the Bryan family. She also visits every year with Mr. Bryan's sister, who is also the Democratic candidate's secretary.

This young woman, who Mr. Kingman says is a member of one of the best-known families in Jacksonville, stated that while she was at the Bryan home, the week before the convention, a delegation of five men from Colorado, representing the silver interests of that section, called upon Mr. Bryan and made him a distinct business proposition.

They told him that if he would support the silver plank in the platform, insist upon having the ratio of "16 to 1" inserted, and refuse to run for the presidency on the Democratic ticket or refuse to accept any nomination on any other than a free silver platform they would pay him personally the sum of $150,000.

The young woman asserts, says Mr. Kingman, that the offer was accepted by Mr. Bryan, and that his stand before the national convention was based upon his financial agreement with the Colorado silver men.

"It is hardly worth while to deny a charge of a man who hides behind a woman whose name he will not give," said Bryan. "I do not know anything of Kingman, but the papers say he is a cousin of Senator Cullom. If the senator will state over his own signature that he believes what his cousin says I'll make a proposition which will give him an opportunity to produce the evidence."

NEW COMPANY FORMED UNDER A RECENT STATE LAW

Well Known Milwaukee Men Interested—Towns to Issue Bonds for Purchase of System—No Tax Incurred, Rentals to Pay All the Costs—Rates Very Low.

Milwaukee, Oct. 3—The Farmers' Telephone Construction company is the name of a new corporation just organized for the novel purpose of supplying farming communities with efficient telephone systems at an exceedingly low expense. The company has a paid up capital of $500,000 and filed a bond of $100,000 with the secretary of state yesterday for the faithful discharge of its agreements.

Officers of the Company.

The officers are:

President—George N. Wiswell.

Vice President—E. A. Wadhams.

Secretary and Treasurer—Henry G Goll.

The Board of Directors is composed of F. G. Bigelow, Charles F. Pfister, George N. Wiswell, E. A. Wadhams, Thomas H. Gill, P. L. Spooner and E. E. Naugle. The five members of the Advisory board are I. M. Bean, Charles Quarles, H. M. Pillsbury, E. G. Cowdry and L. S. Tainter. The headquarters of this company will be in this city.

Service at Low Cost.

The novel plan of giving every farmer a perfect telephone service at low rates has been the subject of careful study on the part of the organizers of this company for the past three years. They have at last hit upon a practicable plan that will give every country dweller the benefits of a complete telephone service at a small cost. The company will begin operations at once and expects to put in a number of township systems in southern Wisconsin within the next few months. Later it will extend its operations to other states.

For Township Ownership.

The company is organized under a law that was passed by the last legislature, of which nothing has been said or written up to this time. It provides for municipal ownership by making it mantatory for the supervisors of any township to issue bonds for the construction of a telephone plant when a majority of the taxpayers voted for it.

The first township to take advange of the law is Spring Prairie, Walworth county. They have issued $8,000 worth of 3 per cent bonds, built their exchange and are to start with 100 subscribers at $12 a year.

A sinking fund is provided and at the end of twenty years they are supposed to have the plant paid for, and it will be owned by the township.

AN INSURANCE TAX HEARING AT MADISON

Willard Merrill Argues That the Burden Is Unjust—Tax Comes Out of Policy Holders.

Madison, Oct. 3—[Special]—At the Insurance Company hearing before the tax commission yesterday afternoon Mr. Willard Merrill of the Northwestern Mutual Life Insurance Company occupied the whole time with an elaborate and exhaustive argument on behalf of his company, claiming that insurance companies should not be taxed at all, except by the payment of small fees sufficient to provide for the expense of the office of the State Insurance Commissioner. He stated that the present tax under the law of 1899 and the reciprocal taxes imposed by other states because of the Wisconsin foreign insurance company tax on the Northwestern company was a hindrance to the company in getting new business, and he made a strong plea for a reduction in the taxes at any rate.

George E. Cepel and the Second Assistant Superintendent of Agencies of the Northwestern was also present.

The hearing was adjourned until this morning at 9 a. m. when Judge Orton of Darlington spoke on the opposite side of the question. Afterwards the fire insurance men will be heard.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay. Clay Co., W. Va., stuck his leg against a cake of ice in such a manner as to bruise it severely, It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he, began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have to be amputated. Pain Balm is unequaled for sprains, bruises and rheumatism. Rain or Shine,

The station agent is on duty. On his exact communication of train orders depends thousands of lives, and millions of dollars in property, each day. In his haste he runs out in the rain or the snow hatless and unprotected. Then comes the sequel—bronchitis, or some other disease of the respiratory organs. The most effective remedy for bronchial or pulmonary disease is Doctor Pierce's Golden Medical Discovery. Almost all remedies prescribed for such diseases contain opium or some narcotic which soothes by stupefaction. "Golden Medical Discovery" contains neither narcotics nor alcohol. It stops coughs by curing their cause. It heals weak lungs, builds up wasted tissues, and promotes the health of every organ of the body.

"I am a railroad agent," writes I. B. Staples, Esq., of Barclay, Osage County, Kans., "and four years ago my work keeping me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep-seated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend advised me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery,' and, by the time I had taken the first bottle I was better, and after taking four bottles my cough was entirely gone. I have found no necessity for seeking another climate."

Dr. Pierce's Pleasant Pellets regulate the stomach, liver and bowels.

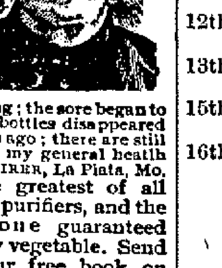
CANCER

Sufferers from this horrible malady nearly always inherit it—not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs through several generations. This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer makes its appearance—or a swollen gland in the breast, or some other part of the body, gives the first warning.

To cure Cancer thoroughly and permanently all the poisonous virus must be eliminated from the blood—every vestage of it driven out. This S. S. S. does, and is the only medicine that can reach deep-seated, obstinate blood troubles like this. When all the poison has been forced out of the system the Cancer heals, and the disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows:



A small pimple came on my jaw about an inch below the ear on the left side of my face. It gave me no pain or inconvenience, and I should have forgotten about it had it not begun to inflame and itch; it would bleed a little, then scab over, but would not heal. This continued for some time, when my jaw began to swell, becoming very painful. The Cancer began to eat and spread, until it was as large as a half dollar, when I heard of S. S. S. and determined to give it a fair trial, and it was remarkable what a wonderful effect it had from the very beginning; the sore began to heal and after taking a few bottles disappeared entirely. This was two years ago; there are still no signs of the Cancer, and my general health continues good.—MRS. R. SHIRER, La Plata, Mo.

SSS is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Send for our free book on Cancer, containing valuable and interesting information about this disease, and write our physicians about your case. We make no charge for medical advice.

WINE OF CARDUI

Woman's Crowning Virtue.

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

McELREE'S Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

NEGRO BURNED AT THE STAKE

Manner of Death Determined by Ballot.

VICTIM BOUND WITH CHAINS.

As the Flames Leaped to the Negro's Flesh He Uttered Wild Cries for Help and Mercy but the Crowd Was Pitiless.

Wetumpeka, Ala., Oct. 3.—Winfield Townsend, alias Floyd, a negro, was burned at the state in the little town of Eclectic, fifteen miles from this place a half hour after midnight. The negro's crime was an attempted assault on Mrs. Lonnie Harrington, whose husband set fire to the fuel which reduced Townsend's body to ashes.

Mr. Harrington was at a cotton gin in Eclectic and lives one mile out of town. The negro came to the house and told Mrs. Harrington her husband had sent him to get 20 cents from her. She told him she had no change. Then the negro left, but returned in about ten minutes. The woman's screams were heard by Bob Nichols, a negro who was passing along the road at the time. He ran to the house in time to see the negro escape.

Farmers Respond to Call.

As soon as Mrs. Harrington was restored to consciousness Nichols gave the alarm. All the stores at Eclectic were instantly closed; the granaries and saw-mills shut down; the people left their wagons in the road and their plows in the field, and gathered for a pursuit of the negro.

The crowd divided, some scouring the woods near the scene of the crime and others going to the penitentiary for bloodhounds. The dogs were not brought to the scene until nearly dark. They were taken to where the negro's tracks disappeared and an exciting chase ensued. The dogs stopped finally at a tree in front of Odion's store on the north outskirts of Eclectic.

The crowd coming up soon discovered the negro sitting on a limb. He was brought down at once and taken to the scene of his crime. There he was confronted by his victim, who positively identified him. Word was sent to the other searching parties that the negro had been found, and about 11 o'clock a crowd of several hundred was in the little village. The negro was taken to the edge of the village and preparations for his death were quickly made. A rope was flung over the limb of a big oak and a hundred men stood ready to swing him up.

Vote on Kind of Death.

Then a halt was called and the manner of death discussed by the mob. A vote was taken and the balloting showed a majority of the crowd to favor death at the stake. The stake was prepared and the negro was bound to it with chains. Pine knots were piled about him and the flames were started by the husband of Townsend's victim. As they leaped to the negro's flesh he uttered wild cries for mercy and help. The crowd looked on deaf to his cries, and in an hour the negro was reduced to ashes.

Townsend, before being bound, confessed the crime and said he was also implicated with Alex. Floyd, his uncle, who was hanged two weeks ago for an attempted assault on Miss Kate Pearson. He said he and Floyd had planned for other crimes of like character.

BABY PULL-BACKS

It is strange that babies get on so well as they do; there are so many pull-backs! But Scott's emulsion of cod-liver oil is a wonderful help.

Begin with a little. Too much will upset the stomach. Increase, but keep under the limit. The limit is upsetting the stomach.

It rests a tired digestion; it does not tax the stomach at all; it lets it play—little stomachs like to play.

THIS DAY IN HISTORY.

Makart.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained; I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

OUT OF THE BUREAU DRAWER.

The wool growers and sheep raisers have been benefited to an unparalleled degree by the return of a protective tariff. During a Democratic administration and the Wilson tariff medium wool sold for 18 cents per pound in 1896. During McKinley and a protective tariff medium wool sold in 1899 for 31 cents per pound. In short, the wool producers almost doubled the price of their wool under a protective tariff.

Posters "G" and "H."

Two remarkably effective campaign posters are ready for distribution by the American Protective Tariff league. They are entitled respectively "Poster G" and "Poster H." "Poster G" embodies the splendid prosperity figures of "Uncle Sam's balance sheet" revised and corrected so as to include the official statistics of the fiscal year ended June 30, 1900. "Poster H" is a picturesque illustration of "That Terrible Eclipse" of 1893-6 and the restoration of the unobscured sunlight of prosperity, 1897-1900. Taken together, "Uncle Sam's balance sheet" ("Poster G") and "That Terrible Eclipse" ("Poster H") present with extraordinary distinctness the contrast of conditions as they existed under Democratic free trade in 1896 and under Republican protection in 1900. These posters can be seen very generally in the headquarters of local Republican committees, or they will be mailed to any address for 5 cents. Address, American Protective Tariff league, 135 West Twenty-third street, New York.

The general prosperity of the farmers in all parts of the country, north, south, east and west, resulting from good crops and good prices is a legitimate votemaker for the Republican party. The Lord gave the good crops and the Republicans gave the good markets, and no amount of political misrepresentation can deprive either of the credit due.

FRANCE TRYING TO UNITE THE POWERS

Hope for an Agreement to Begin Negotiations—Accord of Russia Has Been Gained.

Paris, Oct. 3.—A foreign office official said today:

"France wants peace, and desires it expeditiously. The minister is therefore anxious to find a middle course between Russia and Germany which will meet with the approval of all. There is no foundation for the statement that an effort is making to secure continental accord to the detriment of England or the United States. We are unable to understand exactly the course the United States intends to pursue, whether it will act entirely separate under all conditions, or whether it will negotiate in concert with the other powers in case they reach an agreement satisfactory to it.

"Our hope is for an agreement to begin negotiations. We feel there is nothing in it antagonistic to the interests of the United States and trust we will receive its acquiescence."

Hay's Note Meets Approval.

Washington, D. C., Oct. 3.—News has reached Washington from the European chancelleries indicating that a complete agreement as to China is within sight. The agreement will be on the basis of the propositions laid down by secretary Hay in his note of July 3 and the subsequent notes treating of that subject. The accord of Russia with the United States is more complete than was anticipated.

Many Boxers Beheaded.

Paris, Oct. 3.—The consul at Shanghai telegraphs that the gunboat Avalanche has returned to Canton after having co-operated with Chinese troops to repress troubles on the West river, and says that many guilty Boxers were beheaded.

TUAN IS A PRISONER.

Confirmation of His Degradation Received in Washington.

Washington, D. C., Oct. 3.—The Chinese minister has delivered to the state department official confirmation of the degradation of Prince Tuan and many other Chinse leaders.

The following official statement is made as to Minister Wu's dispatch:

"A cablegram received from Director-General Sheng at Shanghai states that by imperial edict, issued on Sept. 25, Prince Chwang, Prince Yih, Secondary Princes Tsai-Lien and Tsai-Ying, are deprived of all their respective ranks and offices; that Prince Tuan is deprived of office and is handed over to the imperial clan court, which shall consult and decide upon a severe penalty, and his salary is to be stopped; that Duke Tsai Lan and the president of the censorate, Ying Nien, are handed over to said board, who shall consult and decide upon a severe penalty; and that Kang Yi, assistant grand secretary and president of the civil board, and Chao Shu Chiao, president of the board of punishment, are handed over to the board of censors, who shall consult and decide upon a penalty.

Taku, Oct. 3.—The expedition to Paotingfu to punish the Boxers has been postponed, and the start will not be made until Oct. 6. Gen. Gaselee and the German general will command the Pekin and Tientsin columns respectively. The Russians have occupied Tongshan without opposition. The New South Wales contingent of the British troops will winter in Pekin.

Heroine of Pekin War.

San Francisco, Oct. 3.—The little heroine of the siege of Pekin legations, nine-year-old Ruth Ingram, arrived here today from China. She is the daughter of Dr. and Mrs. J. H. Ingram, Congregationalist missionaries who were penned up with the ministers in the legation during the Boxer riots.

Woman Killed by a Train.

River Forest, Ill., Oct. 3.—A woman, supposed to be Mrs. Tanton, and about 25 years old, was killed by a Chicago & Northwestern train at Lathrop avenue, River Forest. Marshal Willmoth says that he saw the woman when she was struck, and that it looked to him as though she jumped in front of it to commit suicide.

Rob a Safe in the Vatican.

Rome, Oct. 3.—Thieves entered the Vatican, forced a safe, and carried off securities worth 357,000 lire and 3,000 lire in silver. The safe, situated on the second floor, belongs to the management of the apostolic palace, which looks after the horses and carriages and the decoration of St. Peter's cathedral. Investigations by the Vatican police have been without results.

Massachusetts Democratic Ticket.

Boston, Mass., Oct. 3.—The Democrats of Massachusetts met in Faneuil hall here and nominated a full state ticket and adopted resolutions setting forth the issues of the present national campaign and the principles upon which they urge the voters of the state to support their candidates. The following is the ticket: Governor, Robert Treat Paine, Jr.; lieutenant-governor, John B. O'Donnell; secretary of state, Gen. Luther B. Stevenson; auditor, E. Gerry Brown; treasurer, John L. Chalifoux; attorney-general, John C. Crosby.

and he was quite right. Many men spend too large portion of their income for their clothes, and they do in one of two ways:

They either buy cheap ready-made garments, and need twice as many clothes in a year as they ought to have; or, they go to the high priced custom tailor whose charges force them to gat along with a smaller number of changes than they would like to have. HIS WEDDING SUIT BECAME HIS SHROUD

A Whitewater Young Man Shoots Himself as the Guests Gather for His Marriage.

Whitewater, Wis., Oct. 3—Frank Whitehead and Miss Lillian Taylor were to have been married at 2 o'clock yesterday afternoon at Miss Taylor's home in this city. Instead of a wedding there will be a funeral, and the garments prepared for the young man's wedding will be worn by him in his coffin.

Yesterday morning about 9 o'clock Whitehead procured a double barreled shotgun, and, retiring to a lonely place, fired a charge of heavy shot into his body.

The only theory advanced is that the excitement of the approaching wedding caused him to become temporarily insane. Guests were assembled for the wedding when news of the tragedy was brought here.

'PHONE MESSAGE MAY FREE PRISONER

Sheriff Leath of Portage, Finds Out His Mistake by Telephoning to This City.

Charles Hughes, one of the men arrested at Evansville, on the charge of attempting to rob a Northwestern mail train, is said to have been identified as Toronto Jim, for whom the United States postal authorities have been searching the country for the last four months.

Hughes was arrested last week and lodged in the Rock county jail. After a few days' detention here Sheriff Leath arrived in the city from Portage and took Hughes back with him. He was detained there on a serious charge. After Hughes had been landed in the Portage jail Sheriff Leath identified the prisoner as Toronto Jimmie. So sure was he of his man that he telephoned Deputy Brown of this city, who knows the much-wanted criminal, having cared for him in the old Rock county jail for several weeks.

Deputy Brown is positive that Hughes is not the much wanted Toronto Jimmie, and he so informed Sheriff Leath over the telephone. Deputy Brown's message may soon result in the prisoner obtaining his liberty.

BUSINESS OPINION.

Solid Southern Men Hope for McKinley's Reelection.

Becoming Awakened to the Necessity of Advocating the Republican Policies of Protection and Expansion.

The south is becoming thoroughly awakened to the fact that the policies of the republican party—protection, expansion and sound money—are those that will best promote the industries of that section of the country. The Manufacturers' Record, of Baltimore, has collected another broadside of southern opinion on the issues of the day, this time from bankers. The southern bankers as a rule coincide with the opinions of the manufacturers, and here is what some of them say:

E. L. Foster, vice president of the bank of Anderson county, Coal Creek, Tenn.: "While I was a democrat, and voted three times for Cleveland, I do not see what could be done—from a mere human standpoint—that would be more disastrous to the business interests of the country, and therefore to every interest, than the election of Bryan. The gold standard of money must be maintained, imperialism or no imperialism."

A. S. Reed, cashier, Bertram, Tex.: "While a very large majority of people in this section will vote for Bryan for president, because he is their party nominee, still the honest conviction of the best business men is that they would really prefer to see Mr. McKinley reelected, believing that such reelection would the better tend to insure a continuance of the present prosperity."

H. F. Schweer, cashier First national bank, Denton, Tex.: "I firmly believe that Bryan's election would bring financial disaster over our beloved country, degradation to our flag wherever it floats; McKinley's election, continued prosperity, and all nations honor our flag wherever it is thrown to the breeze."

H. W. Showalter, assistant cashier, Ritchie County bank, Harrisonville, W. Va.: "Democrats and republicans both say that times are better now than ever before in the country's history. McKinley, protection and sound money is the cry from all lips."

Joseph S. Davis, cashier First national bank, Albany, Ga.: "The conservative business men of the south, almost without exception, regard the doctrine of free, independent and unlimited coinage of silver as a menace to the country's prosperity. But what the result would be should Mr. Bryan be elected, would require a prescience beyond human to declare with certainty."

W. E. Satterfield, cashier People's national bank, New Iberia, La.: "The country has never been so prosperous as since the election of Mr. McKinley. We want to see his good work continued. No Bryan."

G. W. Saxon, president Capital City bank, Tallahassee, Fla.: "The political party that maintains an honest, stable currency, with open doors for foreign trade, will, in my opinion, best subserve the business interests of the country."

J. S. Ragsdale, Blair, S. C.: "The average business man believes that the election of Mr. Bryan to the presidency of the United States would cause a money panic."

F. A. Piper & Co., bankers, Uvalde, Tex.: "We are doing well; be satisfied, and let it alone."

W. S. Wilson, cashier Deposit bank, Eminence, Ky.: "It is my opinion that the election of Mr. McKinley will be for the business interests of the country. Imperialism is only a scare that we care nothing for. I am a democrat, but I am convinced it is to our interest to make no change in the president."

P. A. Ball, cashier American national bank, Fort Smith, Ark.: "This section of the country never before enjoyed so great a degree of prosperity as at the present time. We are well satisfied with McKinley's administration, and for my part apprehend that a change would prove most disastrous to every business enterprise."

A. E. Watson, president First national bank, Marlin, Tex.: "The business outlook is good. In our opinion the election of Mr. Bryan to the presidency would be very disastrous to every business interest in the country."

William Powell, cashier Bank of Culloden, Culloden, Ga.: "I am a northerner. While he (Mr. Bryan) might not be able to foist his free silver issue upon the country, it would be dangerous to give him the chance to do so, and only for the race question, I believe that this would be the verdict at the polls of many thousands of the voters of Georgia."

O. F. Luttrell, cashier Bank of Brewton, Brewton, Ala.: "It seems to be the consensus of opinion among the leading business men that the business and commercial interests of the country will be best subserved by the election of Mr. McKinley. No one denies that the election of Bryan would be adverse to all business."

J. B. Carter, president Gribble-Carter Wholesale Grain company, Sherman, Tex.: "As for presidential candidates I do not think it advisable to make a change at this particular time."

C. W. Arnett, Fairmount, W. Va.: "Bryan's election would mean disaster to business, destruction of public confidence, the return of panics, the reduction of work and wages, and the repetition of the scenes of hardships which filled the land during the last democratic administration."

O. G. Bournan, Citizens' national bank, Hillsboro, Tex.: "I believe that the business interests of the country would be injured less by the election of President McKinley than Mr. Bryan."

E. A. Shipley, clerk and master chancery court, Jonesboro, Tenn.: "I have no doubt that the business interests of the country would be best subserved by the election of Mr. McKinley, and a large majority of the voters share with me in this view, as will be attested by the ballots cast here in November."

RESULTS OF BRYAN'S LETTER.

First Fruits of the Democratic Candidate's Letter of Acceptance.

The response by Aguinaldo is prompt and to the point. Bryan's letter came out only a few days ago, and Gen. MacArthur reports the results.

"Considerable activity throughout Luzon. Fighting reported * * * in districts heretofore quiet. In Ilocan province * * * numerous small affairs. * * * Country north of Pasig * * * very much disturbed. * * * South of Pasig same conditions." It was a mere matter, of course, and had been "anticipated and reported upon" as long ago as August 25 as likely to occur about this time.

Twenty-one Americans killed and 19 wounded!

It is well to keep Lawton's prophetic words in mind: "If I am shot by a Filipino bullet it might as well come from one of my own men, because I know from observation, confirmed by captured prisoners, that the continuance of the fighting is chiefly due to reports that are sent out from America."

Expansion in Trade.

The rapid growth of our business with Japan in rails and machinery during the past four years is an indication of what may be accomplished in that quarter in the future under proper encouragement. Four years ago American rails were unknown in Japan, but at the present they more than double in quantity the rails which come from England, which up to 1896 constituted the chief source of supply. It is believed that Americans have it in their power to practically control the supply of rails and railroad material generally with Japan during the next decade. As an indication, it is cited that the Carnegie company signed a contract at Kobe for 8,000 tons of rails at a price of $3,28 per ton under the lowest English bid. The men who manufacture these rails contribute to the well being of the farmers whose supplies feed and clothe them.—Hardware.

Who Owns the Factories?

Massachusetts is one of the leading manufacturing states in the union. In 1899 there were 4,740 factories, of which 3,461 were owned by individuals, 1,188 by independent corporations and 91 by industrial combinations. The individual manufacturer is the largest element by long odds in the state's industrial enterprises.

It is **Lydia E. Pinkham's Vegetable Compound** that is curing women.

Mrs. Watson tells all suffering women how she was cured and advises them to follow her example.

Here is her first letter to Mrs. Pinkham:

(PUBLISHED BY PERMISSION.)

"March 15, 1899.

"To MRS. PINKHAM, LYNN, MASS.:

"DEAR MADAM:—I am suffering from inflammation of the ovaries and womb, and have been for eighteen months. I have a continual pain and soreness in my back and side. I am only free from pain when lying down or sitting in an easy chair. When I stand I suffer with severe pain in my side and back. I believe my troubles were caused by over-work and lifting some years ago.

"Life is a drag to me, and I sometimes feel like giving up ever being a well woman; have become careless and unconcerned about everything. I am in bed now. I have had several doctors, but they did me but little good.

"Lydia E. Pinkham's Vegetable Compound has been recommended to me by a friend, and I have made up my mind to give it fair trial.

"I write this letter with the hope of hearing from you in regard to my case"—MRS. S. J. WATSON, Hampton, Va.

Mrs. Pinkham's advice was promptly received by Mrs. Watson and a few months later she writes as follows:

(PUBLISHED BY PERMISSION.)

"November 27, 1899.

"DEAR MRS. PINKHAM:—I feel it my duty to acknowledge to you the benefit that Lydia E. Pinkham's Vegetable Compound has done for me.

"I had been suffering with female troubles for some time, could walk but a short distance, had terrible bearing-down pains in lower part of my bowels, backache, and pain in ovary. I used your medicine for four months and was so much better that I could walk three times the distance that I could before.

"I am to-day in better health than I have been for more than two years, and I know it is all due to Lydia E. Pinkham's Vegetable Compound.

"I recommend your advice and medicine to all women who suffer."—MRS. S. J. WATSON, Hampton, Va.

Mrs. Watson's letters prove that Mrs. Pinkham's free advice is always forthcoming on request and that it is a sure guide to health.

These letters are but a drop in the ocean of evidence proving that Lydia E. Pinkham's Vegetable Compound CURES the ills of women.

No other medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends.

Do not be persuaded that any other medicine is just as good. Any dealer who suggests something else has no interest in your case. He is seeking a larger profit.

Follow the record of this medicine and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by

MITCHELL TO THE MINERS.

Leader Addresses Mass Meeting at Wilkesbarre.

BELIEVES FIGHT TO BE JUST.

Says Time Is Near When Anthracite Miners Will Receive as Much for Their Labor as Any Other Class of Workmen—Dilcher Also Spoke.

Wilkesbarre, Pa., Oct. 3.—The miners' big meeting is over, and there are no new developments. There were representatives of operators present, but they attended as spectators, and three was no suggestion that might lead to a joint conference of miners and operators. The miners profess to believe that there will be a settlement in the near future. The operators refuse to say anything, except that the union will not be recognized.

President Mitchell said in part:

"Fellow-Workingmen: A man would indeed be devoid of feeling if he were not proud to have the opportunity to stand before a multitidue like this, which is making a fight for something which it believes to be just. I am proud to know that you are composed of coal miners and their families. I am proud to know that you command in this fight the respect of the clergymen, that you have the sympathy of the public and that the great American press has said with one voice that your cause is a righteous one.

"The greatest strike in the history of the world is drawing to a close. Already the great coal-carrying railroads have agreed to increase your wages 10 per cent, which is a great victory in itself. True, it is not enough, it does not satisfy us, but the time is not far distant when the anthracite coal miners will receive as much for their labor as any other class of workmen in the world."

Other speakers were Fred Dilcher, "Mother" Jones, Benjamin James and George Purcell. Each cautioned the strikers to be orderly, to remain away from the mines and not to interfere with men who might desire to go to work.

At Shenandoah all the local branches of the United Mine Workers held evening meetings and selected delegates to a convention to be called later by President Mitchell. This is the first announcement of the selection of convention delegates.

A meeting of all the officers of the United Mine Workers is to be held in Hazleton, but it is not known whether or not it is for the purpose of considering the 10 per cent offer.

STONE MINERS' HOUSES.

Midnight Attack by Unknown Persons on Non-Strikers.

Hazleton, Pa., Oct. 3.—Half a dozen houses in different parts of this city occupied by non-striking mine workmen were stoned during the night by unknown persons. All of the attacks occurred near midnight. Nobody was hurt, but several persons had narrow escapes from being hit by flying boulders and glass.

The officials of the Lehigh Valley Coal company, which posted notices last night, report the same number of men at work today as worked yesterday, and similar information was received from the various individual collieries where the advance has not yet been offered. The mine workers, as a rule, do not appear to grasp the meaning of the notice as posted by the Lehigh Valley Coal company, and declare they will not make a move toward resumption of work until ordered to do so by a mine-workers' convention.

Notwithstanding an increase of 16 per cent in wages the Reading miners in the vicinity of Pottsville have resolved to stay at home until the big strike i sover. They say they are not only on strike, but will quit work until the trouble ends. It is a sympathetic move on a large scale to enable their brother miners to win their battle and the recognition of their union. The advance in wages would be 10 per cent on their net earnings, and the remaining 6 per cent increase would be coming to them as the result of the high price that the company is not getting for its coal; but the 27,000 employes of the company who are now out are unmoved by these arguments.

Superintendent Zehner of the Lehigh Coal and Navigation company's collieries at Lansford today informed the Associated Press correspondent that no trouble was anticipated in the Panther Creek valley. "We have ten collieries there, employing 5,000 men," said Mr. Zehner, "and they are all working with full forces. No attempt was made this morning to interfere with our workmen, and we do not think the strike will affect our collieries."

Gen. Gobin said to day that he expected to send the majority of his troops home this week. He may decide to keep a small detachment here to protect the pump runners and other men who are kept at work so that the collieries may be kept ready for operation when the strike is over.

Strike leaders from Hazleton and McAdoo failed to get the men out in the Panther Creek valley. It is believed, however, that they will eventually leave work unless the strike is speedily settled. The strike leaders say that all the men in the Panther Creek valley will be out before the end of the week.

GUIDE FOR RAILWAY EXCURSIONISTS

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.
